## Multi Sensory Room guidelines

The aim of the Multi-Sensory Room is to create an enchanting environment that helps develop the individuals' senses through learning, stimulation, relaxation and fun.

Benefits of rooms like these include:

- promoting cognitive development
- improving interaction and social skills
- enhancing communication
- providing relaxation
- improving motor development and focus
- boosting intellectual activity
- stimulating the senses
- enhancing learning and playing
- gaining emotional well-being

Help us to create a safe and enjoyable atmosphere for our customers by following these guidelines:

- All children are supervised while in the room
- The equipment and room is used with care and respect
- The door is to remain open, although maybe closed by arrangement with Library staff.
- No more than 7 people are in the room at one time
- Library staff reserve the right to ask people to leave the room if the room is not being used for its primary purpose or behaviour is unacceptable
- Please respect other groups and allow them time and space to enjoy the room

Inside the Multi-Sensory Room you will find information on how you can stimulate or relax the senses using equipment in the room and some activities to do at home.

Please enjoy the use of the room and the equipment.
